SEALERS MAY CARRY FIREARMS IN THE SEALING ZONE

ONLY THEY MUST NOT USE THEM

BUT THEY WILL USE THEM, THOUGH. JUST THE SAME.

United States Revenue Cutters Will Enforce Regulations and Then There'll be the John Bull to Pay.

Washington, May 14.-An ugly crisis has been reached in the negotiations between the United States and Great Britain looking to the adoption of uniform regulations for the government the scal fishery this season. The British government positively refuses to re-enact the regulations of last year which prohibited the carrying of firearms by sealing vessels through the zone north of the 25th parallel during the closed season. The United States officials look upon this as disastrous to the seal fisheries, holding that the result will be to relieve the pelagic sealers of the only restriction which has operated to prevent an unlimited slaughter of the herds. While killing by firearms remains illegal it is realized that it will be impossible to enforce this prohibition If arms can be freely carried, for the scalers would kill secretly unless they should happen to be under the very eye should happen to be under the very cye of a revenue cutter. Meanwhile the United States cutters have gone out under the old instructions to selze all vessels carrying arms not under seal. These must be modified speedily by orders sent through the Alaska Commercial companys steamer which leaves San Francisco in a day or two, or else there may be another big claim for damages on account of illegal seizures filed by the British government. The attitude of the latter is viewed with much dissatisfaction at the state department where it is regarded as an evidence of the unwarrantable concessions to the Canadian pelagic sealers. sions to the Canadian pelagic sealers. It is also held that the effect of the Butish action is to practically nullify all measures of protection for the seals that was enforced by the Paris arbitration, and it would not be surprising if this course is persisted in, if it resulted in a declaration by the United States of the abrogation of the treaty.

Meade's request to have the Cincinnati ordered to the New York yards instead of to the Norfolk yards are that this vessel was ordered to go to the Norfolk navy yard for some necessary re-pairs. This was done upon the recom-mendation of the chief contractor, who desired that the work, which is now desired that the work, which is now scarce at both yards, might be epually divided between the Norfolk and Brooklyn yards. Admiral Mende, who had selected the Cincinnati for his flagship during the absence of the New York. was thereupon ordered to hoist his flag upon that vessel upon her arrival at Norfolk, in the interim hoisting his flag on the Minneapolis. He afterwards forwarded a second request to the de-partment to have the Cincinnati order-ed to New York instead of the Norfolk.

Perry, O. T., May 14.-(Special.)-A decision was issued today in the district court now in session here which has attracted little attention but will be far-reaching in its effects.

The case came up on an application made by Tour Prudon an Osage Indian, for an injunction to prevent the Osage Indian agent at Pawhuska from inter-fering with the plaintiff and other Inage Indians in constructing a bridge across the Arkansas river at Blackburn,

Judge Bierer granted the injunction Mr. Choate in cross-examination, asked the witness if the judge advocate had not told Dr. Kershner that the object of the inquiry was to find out if any verbatim copies of the reports and endorsements had been sent out by him. himself and other Indians at his own himself and other Indians at his own expenses if he so desired to do, and that the Indian agent could not interfere unless some law of the United States was violated in so doing.

Many of the Indians residing along the Arkansas river are wealthy, and no doubt if this decision is not reversed many more bridges will be built.

Wilcox, Art., May 14 .- A courier has information that twelve armed Indana have been seen prowling around the hills in the vicinity of Buckhorn basin, where the mines are being worked. The miners at once left their claims after being notified and have congregated together for protection to themselves and the new settled families. The locality is near the abandoned post of Fort Bowie and is some twenty railes east of Wilcox. A later report was brought in from the new gold firid in the South Pass of the Dragoon mountains, twenty miles south of here, that six Indians, fully armed, were seen there. They attacked a prospector's camp, driving the prospectors from their claims and firing four shots at one of the men, compelling him to jump hills in the vicinity of Buckhorn basin, of the men, compelling him to jump for safety from a high ledge, severely

ROUNDING UP HORSES. This morning responsible reports were received from Graham county say were received from Graham county say ing that a band of fifteen heavily armed Indians were seen last evening at sundown, seven miles south of Clifton, rounding up horses of clitzers. Much alarm is feit. This morning one troop of cavalry left Fort Bayard, N. M., for the scene, but long marches are necessary to reach the scene of reported danger. The citizens are feeling very wrought up an insecure. The Indians are reported in distress from insufficient rations and trouble is predicted, with no adequate military protection. Only a few available troops can quickly reach the locality and they are at Fort Grant. They have orders to leave inside of a week, hence all are packed up. The abandonment of Fort Bowie leaves the whole southern country epen to their ravages, and it would not surprise those who keep watch of the Indians to see trouble from miscellaneous bands now off the reservation, bent on rapine and murder, end in a general out break.
